

CONSULATE GENERAL OF THE  
UNITED STATES OF AMERICA

May 11, 2015

Dr. B. Chandra Mohan I.A.S.,  
Managing Director  
Chennai Metropolitan Water Supply and Sewerage Board  
Chennai

Dear Dr. Mohan:

On behalf of the U.S. Consulate General in Chennai, I thank you for hosting the visit of Dr. Jennifer Turner, Director, China Environment Forum & Manager, Global Choke Point Initiative, Woodrow Wilson Centre on May 4, 2015 to the Nemmilli desalination plant.

We congratulate you for receiving the 'The Water Leaders Award-2015' by Global Water Leaders group in Greece the same day. Dr. Turner was very impressed that India's largest desalination plant in Chennai was so environment friendly and she talked about the great work you are doing in the forums she subsequently attended during the rest of her trip.

We look forward to more such mutually beneficial interaction and engagement in the future.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'A' followed by a series of loops and a final flourish.

Ariel H. Pollock  
Public Affairs Officer
